## SEVEN OF SWORDS

**TRICKERY, DECEPTION, BETRAYAL, SNEAKING AROUND**

*The Seven of Swords shows a figure slinking away from a military base with five swords in hand, leaving behind two. They look over their shoulder and appear proud of the fact that they've been able to slip away unnoticed.*

You're sneaking around, and you think you've gotten away with it. One misstep and you're going to be caught. Is it worth it? The upright Seven of Swords may also be indicating that you need to prioritize. Find shortcuts to get through responsibilities efficiently to get more off your plate so you can focus on the bigger picture.

You're feeling like you don't belong and are getting a strong sense of impostor syndrome when all the while you've earned your place. Or, you're deceiving yourself somehow and the secret is causing too much stress. Come clean and forgive.

## EIGHT OF SWORDS

**ENTRAPMENT, IMPRISONMENT, VICTIM, NEGATIVE THOUGHTS**

*The Eight of Swords depicts a blindfolded and bound figure among eight swords that are staked in the ground. The surrounding area is barren and damp.*

Your previous thought patterns may no longer be of use to you. Open yourself to a shift in thought, because a change in perspective may be exactly what you need right now. You may be labeling yourself the victim. Rather than feeling sorry for yourself, take back your power and evaluate the choices you have. Trust your intuition.

GEMINI LIBRA AQUARIUS AIR

Stop being so hard on yourself. We're our own worst critic, but you're being especially harsh. If there's something you don't like about yourself, let go of those old patterns of behavior and kick it into high gear to make a shift. Refuse to be a victim, even if it's internalized.

*The Nine of Swords shows a person sitting upright in bed with their head resting in their hands. It appears as though they've been snapped awake from a nightmare. Nine swords line the back wall horizontally.*

Fear is an awful thing, and it's difficult to reach out for help when it hits. Don't hide when you're stricken with grief or sadness. Sharing trauma or stress with others can be therapeutic, and can help you to regain control over what troubles you.

The reversed Nine of Swords signals that a past trauma may be rearing its ugly head once again. But there is hope, so long as you are willing to put in the effort to fight against it. Take care of your mental health and try to isolate as much as you can — many others are going through the same thing.

*The Ten of Swords is a visually striking card, and the symbolism is clear. It shows a figure draped in a red cloth laying face down with ten swords stabbed into their back.*

You've endured something painful and have multiple wounds as a result. It's going to take time to heal. We can't change the past, but we can certainly play a role in our future. *The Knight of Swords depicts an armor-dressed knight charging ahead with great passion on a white horse. Their sword is held high, and in the background, storm clouds are forming.*

You're on a mission, and there's no stopping you. The only problem is that you may be too quick to take action and you're not planning. Keep that energy flowing, but be calculated. Don't trip over anyone on your way, either. You may be careless of the feelings of others on your mission inadvertently, so try to remain empathetic.

*The Queen of Swords shows a figure sitting atop a throne decorated with cherubs and butterflies. With a stern face, they hold a double-edged sword in their right hand.*

The Queen of Swords is telling you to make judgments without emotion. Take inventory of all of the facts before making a decision, and come to an intellectual conclusion. You want to be compassionate, but you have to think with your head rather than your heart right now. Be independent — don't lean too heavily on anyone.

Remember: the loudest one in the room is often the weakest one in the room. Be careful that you're not misusing your power. Be cognizant of the greater good and careful that you're not using your intellect to make others feel inferior. You may be feeling lost about your understanding or options in a situation as well. Be careful that you're not stagnant because progress can't happen if you're standing still.
